Expertise that flips the switch

WE TURN ON CLEAN ENERGY

For over 25 years, we have built a strong coalition of renewable energy developers, businesses and environmental organizations. Our members rely on our experience and expertise to get clean energy projects deployed and implemented in the Midwest that deliver affordability for consumers and strengthen the power grid.

600,000 jobs

$900 million in direct economic benefits

60+ gigawatts of clean energy

Across 9 states

19 million homes powered

170 GW of clean energy projects that need CGA's expertise to be implemented to benefit consumers

24 transmission lines representing **$24 billion** in net benefits to the region

A clean grid in America's Heartland that works for everyone

FUTURE

EXPERTISE THAT FLIPS THE SWITCH

The U.S. is facing rapidly increasing demand for energy, driving up electricity prices and threatening grid reliability. Clean energy is the answer—and we get it done with 17 industry experts on staff and in the trenches. Clean Grid Alliance has unmatched knowledge and experience that is delivering reliable and affordable energy to consumers.

Focused expertise
Technical/Regulatory/Advocacy

Eyes on the whole

Ears to the ground

Words that persuade

CLEAN GRID ALLIANCE | TWENTY FIVE YEARS OF 25 POWERING WHAT'S NEXT | CLEAN GRID ASSOCIATION

Action starts here.

WE'RE IN THE ROOMS WHERE IT HAPPENS

Technical

We persuade

- Influential relationship with MISO, the second largest U.S. electric grid operator
- Remove barriers to energy storage development and interconnection
- Provide fair market access and open competition

Regulatory

We educate & participate

- Policy implementation
- Regional transmission siting
- Integrated resource planning
- Commissioner education
- Regulatory and legal proceedings

Advocacy

We influence & engage

- State legislatures and community members
- Leaders of advanced landmark siting and permitting reforms
- Land & Liberty Coalition, a partnership with the Conservative Energy Network
- Clean Energy 101 events
- Good News First campaigns

By turning on clean energy, we turn on economic prosperity.

3X Clean energy employment grew more than three times faster than the overall workforce in 2024

600,000 Jobs Across all sectors of the clean energy industry

Success in 2025

Passage of the Clean and Reliable Grid Affordability Act in Illinois – will reduce consumer energy costs, enhance grid reliability, and promote clean energy.

Engaged 50 local elected officials and over 150 community leaders on renewable energy technologies and their benefits.

Clean Grid Alliance supported 33.3 GW of new clean energy projects, a 16% increase from 2024.

Our technical teams expertise resulted in approvals for approximately 1000 miles of needed transmission infrastructure and upgrades.

CGA's legal expertise were key to upholding Michigan's historic statewide energy permitting law.

Secured improvements for Renewable Energy Credits in Illinois enabling the state to attain its renewable standard of 40% by 2030.

Action takes investment.

Our effectiveness has grown our network by 80% to over 80 members—double our size in just 5 years. We are recognized as a trusted nonprofit that turns investments into impact, unites diverse interests, and delivers fact-based education to policymakers to accelerate renewable energy adoption. Join Clean Grid Alliance in building a clean energy future in the Midwest.

TOGETHER, WE CAN FLIP THE SWITCH.
