FACT SHEET

WIND DELIVERS TAX RELIEF IN NORTH DAKOTA

Taxable revenue from **wind** projects is very steady predictable income!

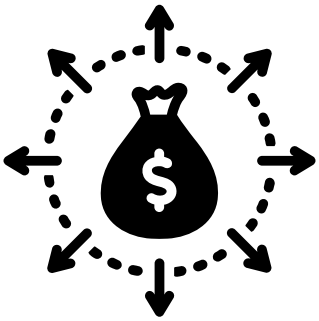
Wind energy accounts for:[1]

- **$11.4 billion - Total Investments**
- **$33.3 million - Payments to Landowners**
- **$31.1 million - State & Local Taxes**

Wind delivers many economic benefits:

Direct payments to landowners who host turbines

Employment opportunities during construction and operation of a project



New spending infused into the local economy

New tax revenue streams to rural communities

The new tax revenue streams can help pay for essential services:

Local Schools

Roads

Police & Fire Services

CLEAN GRID ALLIANCE

FACT SHEET

Wind turbines, and the influx of **new revenue, increases the tax base** and **relieves the tax burden on residents!**

The right to secure land for wind farms are done through a **leasing agreement.**

Payments from a wind agreement create new cash flow for the landowner.
